About Limestone Coast Training Network (LCLHN)

Completing your postgraduate training through the Limestone Coast Training Network can help kickstart your career in rural generalism.

The Limestone Coast Local Health Network (LCLHN) provides a broad and diverse training program to Rural Generalist trainees, or those interested in rural medicine. LCLHN embraces teamwork and all team members are highly valued for the skills and knowledge they contribute to patient care. Preference is given to applicants committed to a career in rural or regional practice with support to complete your internship, and the potential to continue to your PGY2+ years. An ideal balance between the vibrant lifestyle of a big city and comforts of a small town.

AVAILABLE POSITIONS

Internship positions

When you complete your internship at LCLHN you will be provided with broad experiences across diverse clinical areas including emergency medicine, general medicine, anaesthetics and general surgery. You will have opportunities to challenge yourself and to gain valuable experience with hands-on procedural skills. You will have access to learning opportunities including the

PGY2+

You will be part of a dynamic and busy medical team based in Mount Gambier and Naracoorte Hospitals and the Kincaig Medical Clinic. The positions are specially aimed to provide trainee medical officers (TMO) who have just completed an internship a full year experience at the postgraduate Year 2 level (PGY2).

LCLHN work in collaboration with Flinders University Rural Health SA (FURHSA) who provide educational support through the Medical Education Unit (located at FURHSA). There are opportunities within both the general (non-specialist) and general practice training programs to undertake rotations in general medicine, emergency medicine, paediatrics, general surgery, general practice/ anaesthetics and general practice/ obstetrics.

Advanced Skill Training

The Limestone Coast offers 4 areas of advanced skill training; adult internal medicine, anaesthetics (JCCA), obstetrics/gynaecology (DRANZCOG), and emergency medicine. Positions are available to post-graduate year 3 (PGY3+) and above applicants with preference given to applicants enrolled in rural generalist training with either Australian College

of Rural and Remote Medicine (ACRRM) or Royal Australian College of General Practice (RACGP) Fellowship of Advanced Rural General Practice (FARGP).

Anaesthetics (JCCA)

Join the anaesthetics team consisting of experienced anaesthetists and GP anaesthetists, junior doctors and medical students. This role enables the requisite exposure to rural anaesthetic cases to meet the requirements of ACRRM and FARGP requirements in rural GP anaesthetics. It is expected that you enrol in and complete the Joint Consultative Committee on Anaesthesia (JCCA) qualification over the 12 months.

Obstetrics and Gynaecology (DRANZCOG)

Join a collegiate, committed, multi-discipline maternity care team consisting of GP obstetricians, O&G specialists, an O&G registrar

and a wonderful group of qualified midwives. This full-year half-time role provides exposure to obstetrics and gynaecological cases in the rural setting to meet requirements of Diploma of Rural Australian and New Zealand College of Obstetrics and Gynaecology (DRANZCOG) when combined with working part-time in a general practice with comprehensive antenatal care. Some further time in the role is required to complete requirements.

Emergency Medicine

Train with a dynamic, collegiate, multi-discipline team consisting of FACEMs, salaried medical officers, rural generalist trainees and newly qualified nurse practitioners, registered and enrolled nursing staff. This role enables the requisite exposure to rural emergency cases to meet the requirements of the ACRRM and FARGP requirements including Diploma of Emergency Medicine.

We strongly encourage the successful candidate to enrol in a formal Rural

Generalist Emergency Medicine training program.

Adult Internal Medicine

Become part of a collegiate, committed, multidisciplinary medical team, consisting of consultants and junior doctors, allied health, and ward staff. This position fulfils the requirements for both FARGP and ACRRM and involves providing medical inpatient and outpatient services to the General Medical Ward at Mount Gambier Hospital.

Primary Care

Hawkins Medical Clinic, Kincaig Medical Clinic, Loxton Health Clinic and Kingston Medical Centre are accredited medical practices within the LCLHN where you can train in general practice and gain knowledge, skills and attributes in primary care with a focus on rural and remote context.

LIFESTYLE

The Limestone Coast region, home to about 65,000 people, covers the south-east corner of South Australia, reaching around 150km inland, bounded by the Coorong and Riverland Mallee region to its north, and the Victorian border to its east. Mount Gambier, the second most populated city in South Australia, strikes the ideal balance between the vibrant lifestyle of big city and comforts of a small town, between cultural progress and tradition, and modern conveniences and the preservation of natural beauty.

A range of services and facilities are available, from large shopping centres to local markets, commercial industries providing many goods and services, public and private schooling, medical and health facilities, and transport services. Access both Melbourne or Adelaide through flights from the Mount Gambier Airport or within a five hour drive.
