BAROSSA HILLS FLEURIEU B-CET PROGRAM

THE BAROSSA HILLS FLEURIEU B-CET PROGRAM

LEARNING, SUPPORT, COMMUNITY

Barossa Hills Fleurieu offers a rewarding rural training experience in a supportive environment that will equip you for the future.

The Barossa Hills Fleurieu Collaborative for Education and Training (B-CET) provides a broad range of clinical experiences in hospitals and rural and remote primary care settings in the Barossa Valley, Gawler, Adelaide Hills, Fleurieu Peninsula and Kangaroo Island.

Trainees work in small clinical teams providing the opportunity to develop close working relationships with colleagues and obtain hands-on clinical experience in an environment that supports learning. In line with our values, the working culture at BHFLHN embraces collaboration and all team members are highly valued for the skills and knowledge they are able to contribute to patient care.

The B-CET program delivers a wide variety of interdisciplinary training opportunities: ALS2 training, skills/simulation training, tutorials, case discussions and accredited on-site training in bedside ultrasound. The program aims to equip a trainee with the skills they require to pursue the career pathway of their choice.

The BHF region is accredited for postgraduate training in emergency medicine, obstetrics, basic physician training and medical administration. In 2025 BHFLHN is planning to provide opportunities for training in paediatrics, palliative care, geriatric medicine, indigenous health, mental health anaesthesia and clinical education.

For trainees wishing to pursue a career as a rural generalist or as a general practitioner, the B-CET program enables them to complete all of their training from internship to advanced skills training through to Fellowship with the Royal Australian College of

General Practitioners (RACGP) and Australian College of Rural and Remote Medicine (ACRRM).

AVAILABLE POSITIONS

All roles offer generous opportunities to learn a wide range of practical and procedural skills in a rural setting.

Internship

Interns have the opportunity for a wide range of clinical experience including general medicine, anaesthesia, obstetrics, gynaecology, general practice, and emergency medicine.

As part of their orientation interns complete ALS2 training and attend an accredited workshop in bedside ultrasound.

During the year interns are released to attend at least one of the three procedural and clinical skills workshops held each month in the region, join the weekly tutorials and case discussions delivered virtually and have the opportunity for on-site individual training in bedside ultrasound 1 - 2 times per month.

PGY2+

BHF provides a wide range of clinical experiences for PGY2+ including general medicine, primary care, paediatrics, indigenous health, geriatric medicine, palliative care, clinical education and anaesthesia.

The region provides PGY2+ trainees with opportunities for postgraduate training in obstetrics and emergency medicine and to undertake rural rotations in specialist training pathways including physician training, emergency medicine, obstetrics and medical administration.

Advanced Skills Training

Advanced skills training available through the Barossa Hills Fleurieu region includes:

Emergency Medicine

Victor Harbor, Mount Barker, Gawler

BHFLHN offers advanced skills training for the Certificate and Associateship (intermediate and Advanced) in Emergency Medicine.

Training may be undertaken in the Emergency Departments at Mount Barker, Victor Harbor and Gawler Hospitals.

Obstetrics

Mount Barker

Advanced skills training in obstetrics may be undertaken at Mount Barker.

Rural Generalist trainees are able to complete training for the RANZCOG Associate Procedural and Associate Advanced Procedural Associateship.

Primary Care

The Barossa Hill Fleurieu region has a diversity of general practice training opportunities for medical officers planning a career in general practice or as a rural generalist.

In addition to providing primary care, many of the GP clinics provide local hospitals with GP obstetric and GP anaesthetic services, clinical cover for emergency presentations and manage in-patient admissions.

Clinics working with B-CET include:

- Angaston Medical Centre
- Goolwa Medical Centre
- Kapunda Medical Centre
- Kangaroo Island Medical Clinic,
- Littlehampton Medical Centre,
- Summit Health, Mount Barker
- Tanunda Medical Centre
- Tulunga Clinic, Mount Pleasant
- Victor Medical Centre

LIFESTYLE

The Barossa Hills Fleurieu Local Health Network (BHFLHN) covers the prime food and wine regions of the Barossa Valley, Adelaide Hills and Fleurieu Peninsula. All within an hour or two driving distance from Adelaide. The region includes the scenic and unique Kangaroo Island.

Whether it's a tree or sea change the Barossa Hills Fleurieu can provide farm, forest and bush landscapes or pristine beaches and seaside towns. There is access to retail, cafes and dining, public and private schools, education and sport and recreations facilities including the new regional sporting hub in Mount Barker and modern gym and Pilates facilities.

With plenty of open spaces and top tourism attractions not to mention the wine, there are some of the best craft beers, gin distilleries and local fresh produce, you can't beat the lifestyle.
